

Apprenticeship and Commercial Training

RII30815 Certificate III in Civil Construction Plant Operations

This qualification reflects the role of a skilled operator working with civil construction plant and is designed for those individuals and organisations seeking to accelerate their individual career pathway or advance their companies profile within the civil construction industry by providing a service of excellence through a skilled workforce.

Our unique competency based assessment (CBA) model ensures that the apprenticeship program delivers real training and assessment strategies that reflect both the current and future needs of your organisation whilst ensuring minimal disruption to business activity.

Our flexible approach to selected civil construction skill sets will enable candidates under our CBA system to complete this qualification within a realistic timeframe with the full support from our team of industry trainers and assessors.

Lawrence Davis is a high profile training organisation that owns and operates civil construction training centers across NSW and is aligned with a number of apprenticeship centers that ensure candidate progress is professionally managed from sign-up to qualification completion.

Once students have learned and applied skills such as reading plans, levelling, operating small plant, installing erosion control and drainage equipment, and workplace health and safety processes, they move into specialised plant operator training including, excavator, backhoe loader, wheeled front end loader, skid steer loader, roller and other items of plant commonly used in civil construction.

Delivery

- **On the job training** – our trainers come to your workplace to deliver theory and conduct skills observation and on the job training.
- **Live training facility** – courses run anytime at one of our unique training facilities, giving students the opportunity to get hands-on experience in a real working environment.

Fees and charges

Program can be completed as a funded apprenticeship or through general enrollment.
