

## Apprenticeship and Commercial Training

### RII30915 Certificate III in Civil Construction

This trade level program is for those individuals and organisations seeking to accelerate their individual career pathway or advance their companies profile within the civil construction industry by providing a service of excellence through a skilled workforce.

Our unique competency based assessment (CBA) model ensures that the apprenticeship program delivers real training and assessment strategies that reflect both the current and future needs of your organisation whilst ensuring minimal disruption to business activity.

Our flexible approach to selected civil construction skill sets will enable candidates under our CBA system to complete this qualification within a realistic timeframe with the full support from our team of industry trainers and assessors.

Lawrence Davis is a high profile training organisation that owns and operates civil construction training centers across NSW and is aligned with a number of apprenticeship centers that ensure candidate progress is professionally managed from sign-up to qualification completion.

Once students have learned and applied skills such as reading plans, levelling, operating small plant, installing erosion control and drainage equipment, and workplace health and safety processes, they move into more specialised training in their area of interest:

- Road construction and maintenance
- General civil construction skills
- Pipe-laying, water and sewer systems, pits and drainage infrastructure
- Operating various plant and equipment, such as excavators, loaders, dozers, cranes, trucks and machinery

#### Delivery

- On the job training – our trainers come to your workplace to deliver theory and conduct skills observation and on the job training.
- Live training facility – courses run anytime at one of our unique training facilities, giving students the opportunity to get hands-on experience in a real working environment.

#### Fees and charges

Program can be completed as a funded apprenticeship or through general enrollment.
